# THEME: TIME

Lives of great men all remind us  
We can make our lives sublime,  
And, departing, leave behind us  
Footprints on the sands of time.

Longfellow

## DEDICATION

We dedicate our '63 Yearbook to Mrs. Obrey and Mr. Hartford. Through years of vigorous endeavor, they have managed to guide many a student through Eliot High School. Their work will always be a source of inspiration and knowledge to those who have known them.

## DEDICATION

Their qualities of cooperation and leadership have contributed largely to our ideals of life and education. Constant service in our behalf places them in our highest esteem. This dedication is but a small token of our sincere appreciation for the years of guidance, understanding, thoughtfulness, and patience.

ACADEMICS

# English

Mrs. Mullins is shown with several pupils in a course of speed and developmental reading. M. Barrett is shown demonstrating the method which the class uses.

Senior English students are discussing the effects of Transition Periods in English Literature. Mrs. Obrey is acting as the chairman of the class discussion.

# French

"College Bowl," a game which tests students' knowledge of all aspects of French culture, is a weekly part of the French 3 and 4 class's program. The use of a tape recorder for class work, greatly benefits the individual student's pronunciation and ability to read French fluently.

# Math

Mrs. McGraw and Mr. Davis are the teachers in the Math Department. Many new films have been added to the Department this year and have been very useful in class instruction.

The teachers in the Science Department are Mr. Morrison and Mr. Whitney. The Biology and Earth Science classes have undertaken a few projects this year, both worthwhile and interesting.

Mr. Robert Morrison, Physics instructor, is the advisor of the newly established Science Club. The following are the purposes set down by the members:

1. To develop the habit of teamwork coupled with independent and creative thinking, and to further pursue some aspect of science.
2. To develop an appreciation of the scientific methods of inquiry, and also an appreciation within the science field.

# Science

# Social Studies

Mr. Perham is shown instructing a class of Driver's Education on the effects of centrifugal force.

Mr. Cerabona is also a social studies teacher. Ancient History, U. S. History, Social Problems, and Problems of Democracy are his courses.

Mrs. Mullins teaches World History and Social Problems, also.

# Commercial Education

In the Commercial Department, students are taught the basic fundamentals of the business field. Here is the second year typing class, which is given an opportunity to work with actual business problems.

# Industrial Arts

Each year the Industrial Arts Program of Maine holds a Fair in which any shop student in Maine may enter. The last time Eliot Students entered, one received a first award ribbon on his project.

This year, we again plan to enter the fair. Peter Fernald is entering a glass topped coffee table and James Randolph is entering a glass front gun cabinet; both show fine workmanship. Let's hope these boys receive recognition.

Many other areas are taught in our shop also. You are always welcome to come in and look around.

A high-contrast black and white photograph featuring a silhouette of a person in a dynamic, athletic pose. The person is captured mid-motion, with their left leg extended horizontally to the right and their right leg bent. Their arms are raised, with hands open, suggesting a dance move or a gymnastic leap. The figure is set against a bright, hazy background that transitions from a light glow at the top to a darker, more defined horizon line near the bottom. The overall mood is energetic and artistic.

# SPORTS

# Football

*First row:* L. Manson, G. Emery, D. Stuart, Co-Captains: G. Gould, D. Gano, M. O'Malley, S.. McDonough, W. Morin.

*Third row:* G. Fuller, M. Standish, R. Hooper, M. Olsen, F. Short, R. Emery.  
*Fourth row:* Coaches: Mr. Whitney and Mr. Cerabona.

This year's football season was not as successful as we had hoped, but the training which we received this year will help us to have a better season next year.

# Softball

*Left to right, First row:* E. Brown, D. Short, J. Bond, Mr. Perham, Coach, M. Barrett, C. Hall, G. Wood. *Second row:* D. Paul, J. Hichens, S. Leavitt, J. Paul, S. Olson, K. Nutter, L. Martin, J. Evans, S. Raitt, P. Littlefield, P. Staples, N. Rollins, P. Decker.

The F.T.A. has been very busy this year with its many successful projects. We assisted with a Teacher's Club meeting during the month of January, at which several of us served refreshments.

We sold candy for Valentine's Day at which time we made eighteen dollars.

We have enjoyed the pleasure of observing classes in session at the Primary School, under the co-operation of Mr. Freeze, Mr. Dalessio, and Mrs. Mullins. We assisted the teachers in various ways, such as correcting papers, and helping to plan some of the future activities.

We are hoping to help two deserving seniors, who plan on being teachers, as we have in the past, by presenting two seventy-five dollar scholarships at graduation. In order to earn money for them, we are planning a record hop to be held on May 4, 1963.

# Now and Then

Date: May 6, 1962  
Time: 8:00-11:30 P.M.

# Sportsmanship

... all for one ... one for all ... not only in athletics, but also in class work ... that willingness ... willingness to give up a little ... cheerfulness when we lose ... playing for the game and not for the victory ... tolerance in spirit ... freedom from malice ... open mindedness overlooking of weaknesses in others ... giving freely and willingly in proportion to our means ... sticking to legitimate methods ... striving to be worthy of trust ... all of which lead us to merit what we have ... that esteem ... value placed on Eliot.

One of the most coveted honors given to a girl and boy graduating from Eliot High School is that of having their names embossed upon the Good Sportsmanship Award.

The candidates are selected by the Student Council members from the senior class. Six girls and six boys names are given to a board of three teachers who have been nominated by the Student Council. The board of teachers select the three boys and three girls to be presented in nomination to the Student Body for the election of the winners of the award.

Presented to the school by the class of 1953, the award fosters good sportsmanship in our high school and is indeed a cherished and a most deserved honor.
